

Forest Trousers 3.0

Versatile and hard-wearing all-weather GORE-TEX trousers for high-intensity activity in a range of outdoor environments. Suitable for autumn, winter and spring (+15 to -50 °C depending on other layers and the activity). The trousers have a GORE-TEX liner for added tear and puncture resistance. This design is also very effective at preventing the build-up of moisture at low temperatures by creating an additional insulating layer between the outer fabric and inner liner.
